Golden Line Activity

It is important that you learn how to elaborate on ideas with nuanced and sophisticated thinking. This means taking one idea (or golden line), and responding to that concept with 250 words or more.

The purpose of this task is to stretch your thinking, and force you to dig deep for ideas. The ability to respond to a single idea with specific and in-depth commentary, is a sign of a focused thinker.

Choose a golden line (a line that you found interesting) from a documentary or podcast, and respond to it with 250 words or more. You can argue for or against your golden line - or you can partially agree and disagree with it.

What you write is your choice. Just be sure you respond to your golden line with 250 words or more

Write your golden line here:
