## Describe a time that you demonstrated leadership skills

If you have ever had a job interview, you have probably been asked a question similar to this:

Can you describe a time when you demonstrated leadership skills?

Now leadership can come in many forms. Perhaps you lead by example every weekend by volunteering at a non-profit organization. Or maybe you once played a leadership role on an important school project. Or perhaps you once helped resolve a dispute among friends. Or, maybe you are captain of your football team.

Be specific about what you did that demonstrated leadership skills, and explain what you learned from that experience.

So once again. Describe a time when you demonstrated leadership skills.
