## What is the best piece of advice you have ever received?

Here is your question: what is the best piece of advice you have ever received? With social media and a culture that preaches self help, there seems to be a surplus of advice. Be this, do that, think this way, you can do it--blah, blah, blah. Amidst this noise, however, what piece of advice stands out to you? What piece of advice has inspired you or influenced you? Think of this impactful piece of advice, and—in 100 words or more—explain why it was significant for you.
