Cell Phone Policy

If you were principal of your school, what would your cell phone policy be? Brainstorm ideas below.

What general rules would you implement? Do students need to keep their phones in their bags? Will there be a pouch to put phones in? Can phones be allowed on desks?

Who would the rules apply to? Do the rules only apply to students? Do teachers need to follow the rules as well? Are there different rules for different grades?

What is the purpose or objective of the rules? Are you rules created to maximize learning? Are the rules created to give students freedom?
