# Collaboration

Collaboration is the action of working with someone to produce or create something.

For the following task, you need to answer this question:

**How can I become better at collaborating with others?**

**Write 150 words or more. Be honest and specific.**

Here are some guiding questions to help direct your response:

Do I talk too much and dominate conversations? Or do I not talk enough? Do I need to be more assertive with my opinions and less shy? Should I work more on active listening and respecting other people's ideas? Do I need to be more open-minded about differing perspectives? Should I focus on praising people more and telling them how much I like their insights? Do I need to work on my fear of speaking, and talk more? Or do I need to care more about what other people say?
