# What Do You Think About Your Textbook?

For the following task, you need to scan through your textbook for 10-15 minutes.

The purpose of this activity is to give you the space and time to glance at the content you will be learning this school year.

As you look through your textbook, take notes on what you see.

Is the book organized by theme?

Are the chapters long?

Are there many new terms for you to learn? If so, write some of the terms down.

Do any chapters or units excite you?

Do you see any texts or articles that seem interesting? If so, which articles and readings catch your attention?

Do any chapters or units look confusing?

Do you think you are ready for the content that will be covered?

After scanning your textbook for 10-15 minutes and taking notes on what you see, you need to answer the following question: **What do you think about your new textbook?**

Be honest, fair, and specific about what you like and dislike about your textbook.

When you are finished, be ready to share your thoughts with the class.

**Take notes on your textbook here.**
