The Flying Chair

One day you woke up early to take some photos of the mountains and countryside. You were a few miles from home in a beautiful field when--out of nowhere--a chair crashed to the ground nearly hitting you. You looked to the sky to see where the chair came from, and there was nothing.

Your task is to take the next 7 minutes to write a creative story about the flying chair. Where did it come from? How could this event happen?

| Be creative with your story, and provide the details of the flying chair and how this strange event occurred. |
