Write a Story With These 5 Verbs

If you want to elevate your writing, start by using active verbs. **Your task is to craft a story that includes the following five verbs:**

Hug Whisper Tiptoe Stumble Float

You can write about anything, as long as these verbs are used. For example, you could write about a man who stumbles over a rock and mysteriously begins to float. Or, perhaps you'll tell the story of someone tiptoeing around the house to hug their dog and take selfies.

Whatever direction you choose, make sure your story is creative, engaging, and includes all five verbs
