Describe Your Dream Car

Here is your mission: Describe your dream car.

If you could have any car in the world, and you could customize it in any way you please, what would your dream car look like? What features would you include? Would you add a new spoiler? Would you customize your car for speed, looks, or something else? Would you paint your car pink, yellow, or black? Would you add a television screen or a sound system? Would your car be self-driving, or would you want a six-speed manual you could race?

dream car. The more specific you can be, the better. So get writing, get dreaming, and describe your dream car.
