Writing Prompt: Alien Abduction

One evening, while gazing up at the night sky, you notice a bright, glowing object zooming across the stars—closer and closer. Suddenly, a beam of light surrounds you, and you're lifted into the air!

When you open your eyes, you're aboard an alien spaceship. The creatures are unlike anything you've ever seen—friendly, curious, and maybe even a little scared of you.

Write a story about your journey on the spaceship, the alien creatures you meet, and what happens next.
