## Write a Story About Bigfoot

After years of local legends and blurry photographs, Bigfoot has finally been captured on camera—but something seems off. The creature's eyes reflect not fear, but a quiet intelligence. The next morning, a letter arrives at your doorstep, signed only with a muddy footprint. The message is simple:

Write about your encounter with Bigfoot. What does it want to tell you? Why has it chosen you

"You need to hear my side of the story."

to reveal its secrets? What do you learn, and how will this discovery change everything you
thought you knew?
