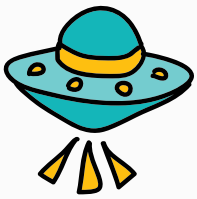
Sci-Fi Story

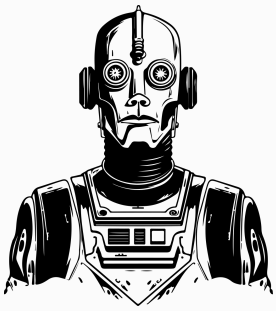
Write a 10-sentence sci-fi adventure using the sentence structure below. Each sentence includes a verb choice to help guide your writing.

1. Begin with a **strange event in the sky**.
(verbs: appeared, blinked, shimmered)
Example: A glowing red triangle appeared above the school roof.



2. Use **personification** (give something non-human a human action).
(verbs: danced, whispered, stared)
Example: The control panel whispered warnings we couldn't understand.

3. Ask a **question** about time.
(verbs: changed, vanished, returned)
Example: When exactly vanished the clock from the wall?



4. Use **onomatopoeia** (a sound word like buzz, zap, pop, or hiss).
(verbs: jolted, ducked, blinked)
Example: Zap! We ducked as blue lightning cracked above our heads.

5. Include a **scientist**.
(verbs: shouted, explained, warned)
Example: The scientist warned, "The portal is unstable!"

6. Mention a **high-tech location** (like the robotics lab or tech vault).
(verbs: entered, snuck, raced)
Example: We snuck into the Quantum Vault before the guards returned.

7. Write a sentence with **exactly 4 words**.
(verbs: glowed, shook, hovered)
Example: The device hovered over us.

8. Include a piece of **futuristic technology**.
(verbs: hummed, spun, cracked)
Example: The teleportation helmet hummed with energy.

9. Include a **color** and a **strange reaction**.
(verbs: turned, flickered, morphed)
Example: The floor flickered purple as gravity reversed.

10. End with a **cliffhanger**.
(verbs: opened, flashed, echoed)
Example: Suddenly, the airlock opened—and something stepped through.
