

## Example Paragraph:

School is more than just a building—it's a place buzzing with energy. In the morning, you might swap jokes with friends in the hallway or team up in science class to launch a paper rocket. At lunch, the cafeteria fills with the sound of laughter, trading snacks, and stories about the weekend. After school, some students head to basketball practice while others rehearse lines for the school play or join chess club. With so many chances to learn, compete, create, and connect, school becomes more than routine—it's a place where memories are made every single day.
