One Gorilla vs. 100 Humans

Imagine a wild (but fictional) scenario where one full-grown silverback gorilla is up against 100 unarmed adult humans. Who would win?

Your task is to choose a side and write a persuasive argument defending your choice.

- Would the gorilla's strength and speed make it unstoppable?
- Or would the teamwork and numbers of the 100 humans give them the upper hand?

In your writing, be sure to:

- Take a clear position (Team Gorilla or Team 100 Humans)
- Use logic, examples, and reasoning to support your claim
- · Consider possible arguments from the other side and explain why yours is stronger

• Use vivid language to paint a picture of the battle (without being too graphic)
