10-Sentence Story Challenge: Add a Word to Each Sentence

Write a complete story using exactly 10 sentences.
Here's the twist: each sentence must be one word longer than the last.

That means:

Sentence 1 = 1 word
Sentence 2 = 2 words
Sentence 3 = 3 words
Sentence 10 = 10 words

Here is an example story:

Run.

Oh, no.

Something was coming.

What could it be?

Adrenaline pulsated through his body.

Behind him, a scream echoed angrily.

He tripped hard, crashing into a tree.

A shadow loomed, stretching longer than he expected.

He turned slowly, heart pounding like a warning drum.

But nothing stood there—just silence, thick and watching him.

Now it is your turn to write a 10-sentence sentence story. Be creative,
and try to build tension or surprise as the sentences grow.
