Create a Drawing From a Descriptive Paragraph

For this task, you will read a descriptive paragraph carefully. Your goal is to draw a picture that accurately shows the details described in the text.

The sky is filled with soft pinks and purples, and a giant clock floats like a balloon over snow-capped mountains. Below it is a crooked city with leaning buildings. A light-blue river winds through the city. There are bridges with people laughing and jumping into the cool waters. The people of the city are joyous. They are playing games such as basketball, chess, and soccer. A curious cat in an astronaut helmet watches the happenings from a lamppost.
